

## ER Diagram:

## Assumptions:

Students, Lecturers and admins use their user account to login.

A course is created by one admin.

A reply can create one discussion thread.

Students and lecturers are assigned to courses.

Replies create discussion threads.

Assignment grades are null if not marked.

**Relations/Tables:**

userAccount (email, password, loggedIn)

Student (sid, sname)

Lecturer (lecId, lecName)

Admin (adminId, adminName)

Assignment (assignmentId, courselId, grade)

Course (courselId, title)

discussionForum (forumId, forumTitle, createdBy)

discussionThread (threadId, threadTitle, forumId, threadBody, createdBy)

Reply (replyId, threadId, replybody, createdBy)

calendarEvent (eventId, courselId, task, dueDate, status)

Section (sectionId, sectionTitle, courselId)

Item (itemId, itemTitle, itemType, sectionId)
